If after reading this section you determine that you are eligible, you qualify for Plan A or Plan B. If you are purchasing Plan A, or if you are under the age of 40 and purchasing Plan B, please complete Parts B, C and D.
- 2. Those aged 40-85 who are eligible to complete this application may be eligible for Plan B. Coverage Options

Single-Trip Coverage – This plan provides emergency medical coverage for one trip only. Coverage begins on the *effective date* and ends on the termination date as specified on your application and your confirmation of insurance documents. Single-Trip Coverage also includes Travel Accident Coverage for up to \$50,000 CDN in the case of accidental bodily injury or death.

Trip Interruption Coverage — This is an optional benefit and the additional required premium must be paid for coverage to be effective. This benefit covers the non-refundable and non-transferable portion of your trip, should it be interrupted and you are required to return to your home country due to a covered event concerning yourself, an immediate family member or a travel companion.

Definitions

Italicized words have a specific meaning. Please refer to these definitions when completing the Medical Questionnaire.

Activities of daily living means eating, bathing, using the toilet, changing positions (including getting in and out of a bed or chair) and dressing.

Change in medication means the medication dosage, frequency or type has been reduced, increased or stopped, and/or new medications have been prescribed. We do not mean a change from a brand-name drug to an equivalent generic drug of the same dosage, and a routine adjustment in the dosage of your medication, as a result of your blood levels only, if you are taking Coumadin (warfarin) or insulin and are required to have your blood levels tested on a regular basis and your medical condition remains unchanged.

Effective date means the date on which your coverage starts.

Hospital means a facility that is licensed as a *hospital* where in-patients receive medical care and diagnostic and surgical services under the supervision of a staff of physicians with 24-hour care by registered nurses. A clinic, an extended or palliative care facility, a rehabilitation establishment, an addiction centre, a convalescent, rest or nursing home, home for the aged or health spa is not a *hospital*.

Medical condition means *sickness*, injury, disease or symptom(s), complication of pregnancy within the first 31 weeks of pregnancy.

Pre-existing condition means a *medical condition* that exists before your *effective date*.

Stable medical condition means that:

- you have not had a new symptom(s); and
- existing symptom(s) have not become more frequent or severe; and
- a physician has not found that the *medical condition* has become worse; and
- no test findings have shown that the *medical condition* may be getting worse; and
- a physician has not provided, prescribed, or recommended any new medication, or any change in medication; and
- a physician has not provided, prescribed, or recommended any investigative testing, new treatment or any change in treatment; and
- there has been no hospitalization or referral to a specialist or specialty clinic; and
- a physician has not advised referral to a specialist or further testing, and there has been no testing for which the results have not yet been received.

Treatment hospitalization, prescribed medication (including prescribed as needed) medical, therapeutic, diagnostic or surgical procedure prescribed, performed or recommended by a licensed medical practitioner.IMPORTANT: Any reference to testing, tests, test results, or investigations excludes genetic tests. "Genetic test" means a test that analyzes DNA, RNA or chromosomes for purposes such as the prediction of disease or vertical transmission risks, or monitoring, diagnosis or prognosis.

Pre-existing Condition Exclusion

The pre-existing condition exclusion that applies depends on your age and the plan you have qualified for as determined by your answers to the medical questions.

Up to age 85: We will not pay any expenses relating to any medical condition, diagnosed or undiagnosed, which existed or for which you sought or received medical advice, consultation, investigation, or for which treatment was required or recommended by a physician, in the 180 days before your effective date of insurance; any heart condition if, in the 180 days before the effective date, you require any form of nitroglycerine for the relief of angina pain; any lung condition if, in the 180 days before the *effective date*, you require *treatment* with oxygen or prednisone for a lung condition.

Up to age 85: We will not pay any expenses relating to a pre-existing condition that is not stable in the 180 days before your effective date; any heart condition if, in the 180 days before the effective date, you require any form of nitroglycerine for the relief of angina pain; any lung condition if, in the 180 days before the effective date, you require treatment with oxygen or prednisone for a lung condition.

ALL PLANS & ALL AGES

Hospitalization for a pre-existing condition: We will not pay any expenses relating to a pre-existing condition for which you are hospitalized either more than once or for at least 2 consecutive days in the 12 months before your effective date.

Part C • Premium Calculation

Line A

The following calculation tables apply only if all applicants purchase the same plan and have the same deductible option. Otherwise, please use a separate application form for each applicant. Determine Your Premium — The premium due for your coverage is based on the plan you are purchasing, your age and trip duration. Please refer to the Rate Chart and enter the applicable premium. For Single-Trip Plans, multiply the number of days of coverage required (Line A) by the appropriate "per day" premium rate provided on the rate chart.
